

## Useful Information

---

### Wi-Fi Connection

The University of Siena belongs to the **EduRoam network** (Education Roaming). EduRoam is a service that offers secure wireless access to users from the international scientific community. Guest users are able to access the University of Siena's wireless network using their institute's credentials (username and password), without the need for further formalities. You may need to run the EduRoam Configuration Assistant Tool (CAT) to connect your device, which can be found at <https://cat.eduroam.org>

Another option available to temporary guests is the **UnisiConference WiFi network**. Access to this network is protected by a password that is updated every week. The password will be made known to all participants in the Conference Venue.

---

### Coffee Break & Lunch

Coffee breaks and lunches will be served downstairs with respect to the Lecture room.

---

### Poster sessions

37 posters are scheduled, divided into two poster sessions. However, we have enough panels to hang all the posters together throughout the Conference. So Poster Session 1 and Poster Session 2 are intended as 'attendance time', i.e. the time the author is expected to be present in front of their poster. All posters will be displayed in Room 3. Supplies for hanging posters (pins, etc.) will be provided on site.

---

### Slide Desk

A Slide Desk will be set up in the same room as the Registration, to receive PowerPoint files of oral presentations. Presenters will be asked to bring the file on a USB stick at least 30 minutes before the scheduled start of the session. Staff members will collect all files and upload them on the computer in the Lecture room.

---

### Special Issue of the Swiss Journal of Geosciences

Following the Alpine Workshop tradition, a thematic volume in the Swiss Journal of Geosciences will be published, with contributions across all geological disciplines. The deadline for manuscript submission is **30.09.2025**. More information at: <https://www.alpshop2024.eu/specialissue.html>

---

## Social Dinner

The Social Dinner will take place in the premises of the “Contrada della Tartuca”, **Tuesday 17 September**. The meeting point is by “Museo Contrada della Tartuca”, Via Tommaso Pendola 19, Siena, at **19:30** (only a 10-minute walk from the conference venue). First there will be a visit to the “Contrada” museum, then the dinner will follow (about at 20:30). At the web page <https://www.alpshop2024.eu/social.html> a button link with meeting point location is given.

---

## Visit the National Antarctic Museum

Only a 50-metre walk separates the Alpine Workshop venue from the ‘Felice Ippolito’ National Antarctic Museum. The exhibits of the Museum shows the history of scientific exploration on the Antarctic continent and touches on research topics such as geology, glaciology, paleoclimatology, biology, atmospheric, marine sciences, and thematic cartography. Information is provided through showcases with rock samples, meteorites, volcanic bombs, fossils, organism preparations, posters and information technologies.

The museum is open every day from 9:00 to 15:00, admission is free (you just have to get there) and the museum staff will be happy to introduce you to the exhibits and various aspects of geological research in Antarctica.
